## Newport County AFC Board Safeguarding Commitment

The Board of Newport County AFC formally commits to working collaboratively with all internal and external stakeholders to build strong, transparent relationships that promote a safeguarding culture which is both preventative and practical. We are dedicated to ensuring that our safeguarding policies and procedures are fully embedded across the Club and translated into meaningful day-to-day practice.

Our Academy will continue to undergo annual independent auditing through the EFL Safe to Operate assessment, as well as reviews conducted in partnership with the PGAAC and Barnardo's, ensuring full compliance with the EFL Safeguarding Standards. In addition, we will invite the EFL to undertake a mid-season informal review each year to monitor progress and support continuous improvement.

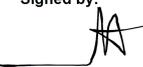

The Board further commits to maintaining close and proactive working relationships with the EFL, The FA, the FAW, the DBS Service, and relevant Local Authorities to ensure that appropriate information is shared responsibly and effectively in order to prevent harm and protect those at risk.

Above all, we will ensure that the rights, welfare, and voices of children and adults at risk remain central to every decision we make, working alongside our football partners and external agencies to uphold the highest standards of safeguarding across all areas of the Club.
